HOME RULE FOR UTAH.

Territorial Policy of the National Democratic

(From the Chicago Pintform, Jone 1892.]

(From the Chicago Piciform, June 1892.]

We seleminy declare that the need of a reliant to these fundamental principles of free popular government, based on home rule and incividual aberty, was herer more urgent than now. The tendency to centralize all power at the federal capital has become a menace to the reserved rights of the states.

We approve the action of the present House of Representatives in passing this for the admission into the Union, as states, of the territories of New Mexico and Arizona, and favor the enrily admission of all territories having the occasion population and resources to entitle them to statehood; and, while they remain territories, we hold that the officials appainted to administer the povernment of any forritory, together with the Districts of Columbia and Alaska, should be bone-fide residente of the territory or district in which their duties are to be performed. The Democratic party selleves in home rule and the control of their sars affairs by the nearle of each violinage.
